ABOUT THE COMPANY

DAKHIL ALI AL DOSSARY FOR TRAD.EST. is a Saudi Arabian industrial and building materials trading company established in 2009, specializing in high-quality piping systems, stainless steel products, valves, fittings, and construction materials.

The company provides reliable supply solutions for industrial, commercial, and infrastructure projects, supporting contractors, engineering companies, and project developers across Saudi Arabia. With operations primarily in Riyadh and Al Khobar, the company has built a strong reputation for dependable supply, technical expertise, and efficient delivery of mechanical and plumbing materials required for modern construction and industrial projects

THE BEGINNING (2009)

Every great venture begins with a vision. In 2009, our founder, Dakhil Ali Al Mufleh Al Dossary established the company in the heart of Riyadh. Driven by a commitment to quality and a deep understanding of the local market, the company was built on a foundation of trust, excellence, and strong values

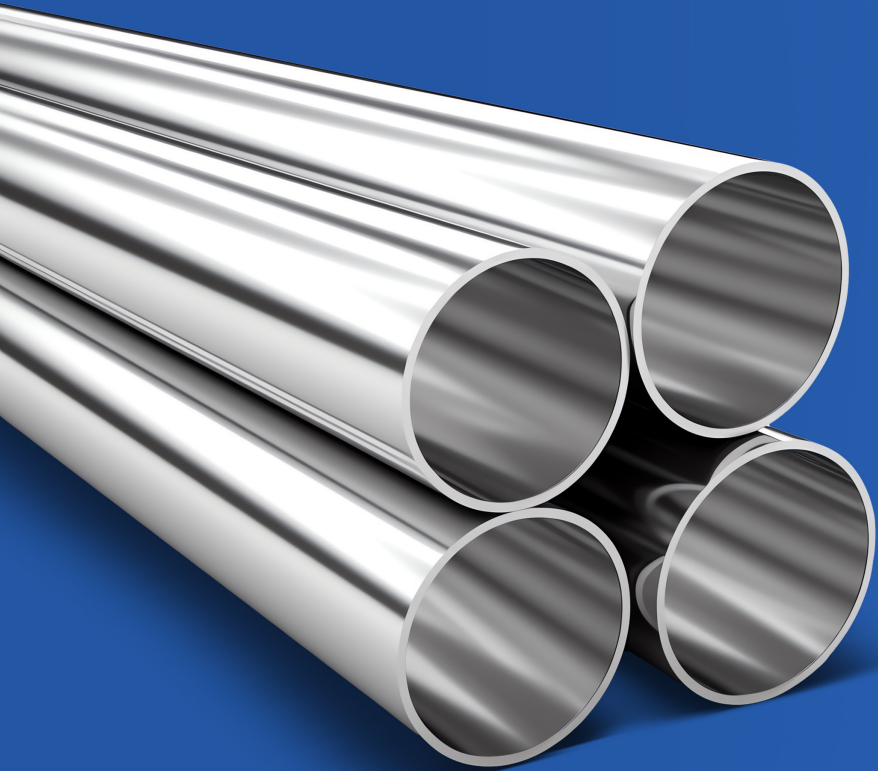

GROWTH & **EXPANSION**

What started as a visionary enterprise in the capital city quickly gained momentum. As the demand for our premium products grew, so did our footprint. To better serve our expanding clientele, we strategically expanded our operations, establishing key branches in Al Khobar to anchor our presence in the Eastern Province

SERVING THE KINGDOM

Today, we are proud to say that our journey doesn't stop at city borders. From our major hubs, we have built a seamless distribution and sales network that allows us to deliver our high-quality products to customers all over Saudi Arabia

OUR VISION

To become a trusted and leading supplier of industrial and construction materials, supporting the successful execution of infrastructure and development projects across Saudi Arabia.

OUR MISSION

To provide high-quality products and reliable supply solutions while maintaining integrity, responsiveness, and customer satisfaction.

EUROTECH ENGINEERING

ENGINEERING COLLABORATION

DAKHIL ALI AL DOSSARY FOR TRAD.EST. works in collaboration with Eurotech Engineering, enhancing its ability to provide engineering-based supply solutions for industrial and construction projects

THE COLLABORATION SUPPORTS

- ♦ Technical engineering support
- ♦ Specialized industrial material sourcing
- ♦ Engineering consultation for piping systems
- ♦ Project-specific supply coordination

This partnership strengthens the company's ability to support complex industrial and infrastructure projects

WAREHOUSE & SUPPLY CAPABILITIES _____

WAREHOUSE & _____ LOGISTICS INFRASTRUCTURE

The company maintains organized warehouse facilities to ensure ready stock availability and efficient material distribution

WAREHOUSE _____ CAPABILITIES

- ✦ Storage of stainless steel pipes and industrial materials
- ✦ Organized stock management for piping systems
- ✦ Safe handling of valves, fittings, and accessories
- ✦ Efficient loading and dispatch operations

Warehouse operations are designed to support large-scale industrial and construction requirements across Saudi Arabia

INDUSTRIES _____ **WE SERVE**

DAKHIL ALI AL DOSSARY FOR TRAD.EST. supplies materials to a wide range of industries

- ♦ Industrial pipelines and fittings supply
- ♦ Large-scale construction projects
- ♦ Plumbing and sanitary systems installations
- ♦ Custom valve provisions and precision solutions

WHY _____ CHOOSE US

EXPERIENCED & SKILLED TEAM

Expert staff with deep knowledge of industrial materials and applications

CUSTOMER-CENTRIC APPROACH

Focus on tailored solutions and strong client relationships

QUALITY PRODUCTS

High-quality materials sourced from trusted manufacturers

24/7 SERVICE SUPPORT

Emergency assistance and round the-clock customer support

FAST & TIMELY DELIVERY

Efficient logistics to ensure timely order fulfillment
